APN-100

A Mech-Sensor combines with a sensor that automatically detects labels of different strokes to eliminate the need for manual alignment when you load labels.

- For pre-printed general roll labels. No special (punched or slit) labels or separators required.
- Supports use of label size from 18 x 20mm up to 60 x 100mm.

**The Mech-Sensor** catches the label and automatically detects the stroke for smooth feeding.
